

BioCote Protection
 We offer the patent-protected BioCote anti-bacterial finish as standard on all internal and external surfaces. BioCote inhibits the growth of potentially dangerous bacteria and fungi, such as Salmonella, MRSA and E. Coli.

- Improves security and encourages good housekeeping
- 5 configurations to meet all requirements
- All steel construction for long life with low maintenance

Features and Benefits

- Bespoke computer workstation design
 Workstations designed specifically for IT equipment, including louvre slots for cooling airflow. Management ducts keep cables tidy, protected and out of view. Pull out shelves for both keyboard and accessories.

Cables are kept neat and tidy preventing damage

Pull out shelf not fitted to wide units

- Robust mild steel construction
 To provide a functional storage facility and withstand constant day to day use and repositioning. Workstations are designed and manufactured by Moresecure in the UK.
- Secure equipment storage
 Valuable equipment can be stored in the lockable monitor unit, keyboard unit and cupboards – 2 keys are supplied as standard.
- Optional braked castors
 Castors can be fitted to Standard Computer Workstations allow for changing use of space. Adds 75mm to the height of the unit.
